PROFESSIONAL SUMMARY

- Back-end Software Engineer with **4.5 years of experience** in developing scalable enterprise insurance applications using **Java 8, Spring Boot, REST APIs, SQL, and Microservices**
- Skilled in backend optimization, API development, production support, and enterprise application modernization
- Improved application performance by **87%**, reduced batch processing time by **79%**, and maintained **99.9% system uptime** through SQL tuning, multithreading, and backend performance engineering
- Experienced in Agile software delivery, sprint planning, release activities, and client interactions, requirement discussions, and technical coordination

TECHNICAL SKILLS

- **Core Java:** Java 8, Collections, Multithreading, Exception Handling, Streams API
- **Backend Technologies:** Spring Boot, Spring Framework, Spring Security, REST APIs, JDBC
- **Architecture & Design:** Microservices, DAO Layered Architecture, API Design
- **Databases:** MSSQL, MongoDB
- **Cloud & DevOps:** AWS (EC2, S3, CloudWatch), Jenkins, Git, CI/CD Pipelines
- **Messaging & Monitoring Tools:** Apache Kafka (Basics), Prometheus, Grafana, JProfiler, Glowroot
- **API Testing & Documentation:** Postman, Swagger UI
- **Build Tools & Servers:** Maven, Tomcat
- **Development Tools:** Eclipse, STS
- **Methodologies & Practices:** Agile (Scrum), JIRA

WORK EXPERIENCE

DXC Technology, Noida

Dec 2021 – Present

Analyst I – Software Engineering

Apr 2025 – Present

- Engineered secure and scalable **RESTful APIs** using **Spring Boot** and **MongoDB** for enterprise insurance platforms
- Optimized **database queries** and implemented **caching strategies**, improving API performance by **30%**
- Maintained **99.9% system uptime** through proactive monitoring, debugging, production support, and issue resolution
- Leveraged **AI-assisted development tools** to improve debugging efficiency, code quality, and feature delivery speed
- Participated in **client business calls**, technical discussions, and requirement analysis to align backend solutions with business needs

Analyst II – Software Engineering

Nov 2023 – Apr 2025

- Improved backend and application screen performance by **87%** through **SQL tuning**, Java optimization, and efficient JDBC interaction
- Refactored legacy architecture from **DAM to DAO layered architecture**, improving scalability, maintainability, and batch processing efficiency
- Automated **CI/CD pipelines** using **Jenkins and Git**, reducing deployment effort and improving release efficiency
- Participated in **sprint planning**, release planning, client business calls, and requirement discussions in Agile environment
- Worked on **production support**, defect analysis, backend optimization, and performance engineering for enterprise insurance applications

Associate Professional Software Engineer

Dec 2021 – Nov 2023

- Reduced batch job execution time by **79%** through **multithreading**, backend optimization, and efficient database processing techniques
- Developed a **real-time analytics dashboard** using **Java** and **MSSQL** for operational reporting and business insights
- Worked on **batch job optimization**, report generation, and policy data processing for enterprise insurance applications
- Refactored legacy **DAM architecture to DAO layered architecture**, improving application screen performance, maintainability, and backend scalability
- Participated in **sprint planning**, production deployments, defect fixes, and production support activities in Agile environment

ENTERPRISE PROJECTS

Integral Assure – P&C Insurance System

Jan 2025 – Present

- Developed enterprise backend services using **Java 8**, **Spring Boot**, **REST APIs**, and **MongoDB** for Property & Casualty (P&C) insurance platforms
- Designed and implemented secure, scalable, and high-performance **RESTful APIs** for policy and insurance service integrations
- Contributed to backend modernization, microservices-based application enhancement, production support, and API performance optimization
- Worked closely with business, QA, and UI teams during requirement analysis, release activities, and production deployments in Agile environment

Integral Assure – Group Insurance System (PAS)

Dec 2021 – Dec 2024

- Developed and optimized scalable backend modules for enterprise **Group Insurance Policy Administration Systems (PAS)** supporting **1,00,000+ policyholders**
- Improved backend and batch processing performance using **SQL tuning**, **multithreading**, caching, concurrency handling, and efficient JDBC interaction
- Worked on policy servicing, employee enrollment, claims processing, and batch execution modules for large-scale insurance applications
- Enhanced application scalability and maintainability through **DAO layered architecture**, backend refactoring, and performance engineering initiatives

Smart ATS Score Tracker | [GitHub](#)

Personal Project

- Developed a scalable **Spring Boot REST API** to analyze resumes against job descriptions and calculate weighted **ATS compatibility scores**
- Implemented secure user authentication and authorization using **JWT** with personalized score history management using **MongoDB**
- Built resume parsing functionality for **PDF/DOCX** files using document processing libraries to extract and process candidate information
- Integrated application monitoring and observability using **Prometheus** and **Grafana**, with API documentation support through **Swagger UI**
- Designed RESTful APIs following clean layered architecture principles to improve maintainability and scalability

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Oracle Cloud Infrastructure Generative AI Professional (2024)
- Oracle Cloud Infrastructure AI Foundations Associate (2023)
- Oracle Cloud Infrastructure Foundational Associate (2023)

ACHIEVEMENTS

- Diamond Excellence Award – DXC Technology (Nov 2024)
- DXC Champs Awards – Q2 FY24, Q3 FY23
- Emerald Awards – Oct 2022, Aug 2022, Jan 2025, Jul 2025

EDUCATION

B.Tech – Civil Engineering

2017 – 2021

Jawaharlal Nehru Technological University (JNTU), Anantapur

86.7%

Relevant Coursework: Programming in C, Object-Oriented Programming, Operating Systems, Database Management Systems
